There were several children's fielts and toy cames hanging on the bracket, and the theory of Mr. Murikugh is that in an endeavor to re-move one of these the gas was accident-ally turned on.

The fact that all the windows were up probably accounts for the fact that none of the family lost their lives. The room, according to Mr. Murdaugh, was filled with gas when he awoke, and the fact that his wife fell on the bed after she had lowered the windows was

also a favorable feature.

Mrs. Murdaugh is the sister of James Ellerson, of the firm of Ellerson & Wemple, real estate prokers, and is well Wemple, real estate brokers, and is well known in Washington and Virginia. Mr Murdaugh has been actively engaged to the real estate business in Washington for the last twenty years. He is a native of Virginia, having been born in Alexandria. He has taken an active part in Virginia politics for years, and is well known in that State as a speaker.
